UNIVERSITY BILLS

All University expenses, including board, must be paid in advance to the Treasurer of the University.

Students may take their meals at any house approved by the Curator, with the exception of Freshmen and Sophomores, all of whom are required to board at the University Dining Halls.

Students are required to call at the Treasurer's office in the course of the first ten days of each term, and to give information as to their place of boarding, etc., so that their bills can be made out. All bills must be paid within the first four weeks of the term. Failure to comply with this rule will deprive the student of the privileges of the University until payment is made, unless he be excused by special vote of the Faculty.

REMOVAL OF ENTRANCE CONDI- TIONS ON ACCOUNT OF GOOD STANDING

At the close of Freshman year any undergraduate against whom entrance conditions are recorded may be relieved from these conditions provided that during the whole of

Freshman year he has pursued the studies required of him in the Departments in which the conditions lie, and has maintained a rank not lower than third group in each of the said studies, and provided also that he furnish a written statement from the Headmaster of his preparatory school that he has covered the ground stated in our entrance requirements.

If entrance conditions remain at the beginning of Sophomore year, an extra course must be taken in the subject in question and a fee paid therefor. A failure in this course will count as a condition.

CURRICULUM

The attention of all entering students is earnestly called to the pages of the University catalogue dealing with the course of study—pages 105-125.

It will be noted that practically no option is allowed in Freshman year, but that in Sophomore year a student may choose certain electives from a specified list. In Junior year, it becomes necessary for a student to select from the eleven departments one particular department in which to concentrate his studies. In this year, the student is required to take the two or more courses offered by his

department. In case he takes only two in the department, he must take another in the *division* in which his chosen department lies. One of the two remaining courses must be outside the *division*. In Senior year, greater freedom is allowed, since only the three departmental courses are required; the remaining two are free electives.

It will be noted that certain Sophomore studies are prerequisite to certain departments of Junior year: as, for example, History, second term Sophomore year, is a prerequisite for the Department of History, Politics and Economics; Chemistry, for the departments of Chemistry and Biology; English, for the Department of English; Classics, for the Department of Classics, etc
